HOW TO BEST USE THIS CHART

Step #1 - Check the box above that best represents how much you wanted to regularly give to the Lord's work at your church.

Step #2 - Compare what you checked on the chart with your current church giving statement.

Step #3 - Realize that Scripture teaches that Christian giving is an important part of a person's spiritual growth and development.

Step #4 - If you have fallen short of your intentions, prayerfully ask yourself the question: Do I realize it would be a great help to my church if I considered giving a "catch up" offering (or offerings) to help make up for some of the offerings I didn't give?

Step #5 - Ask yourself the question: In the future, what can I begin to do to become more faithful in my giving to the Lord's work at my church? Consider this suggestion: Whenever you write a deposit into your checkbook, immediately write out a check for the Lord's work. Then you will always be prepared to faithfully give to the Lord from what He's given you!
