My wife and I left this training by Brian so encouraged. We have a real desire to apply these teachings to our finances first and then to teach them to our church.

Best Bible teaching and useable materials I have EVER received in over 25 years of attending pastor conferences. No selling. Just solid Biblical and practical resources.

This teaching by Brian was transformative. My spouse and I are now eager to use the take-home materials to help our family and then to share them with our church.

I did not even want to attend this training. I am in my 70s. I've gone to hundreds of conferences over the years and thought I would not hear anything new that would help me or my church. I was wrong. Best training ever!

Really excellent teaching presented in a very understandable and clear way.

It was such a blessing. I have been asking the LORD how can I better my family's finances. This training was an answer to my prayers and will also help my church.

The material, 40-Day Bible devotional, training videos, and everything taught was so powerful! My wife and I are so grateful for this great blessing in our lives.

Money has always been a touchy subject. This training and free resources will help my family and will empower my church to teach giving in many new & fresh ways.

Really excellent information and materials presented in a clear and understandable way. My wife and I are so happy we attended.

I plan to use Brian's materials to inspire my congregation to give more to missions and to help me become a better financial role model to my congregation.

Brian's teaching encouraged, equipped and empowered us. We look forward to integrating his teaching and resources into our church discipleship and teaching.

This teaching and resources will help us present generosity in a whole new light.

***We will implement the study and the materials provided in our church.
We believe this will help us develop a generous church.***
